Maintenance Packages

All maintenance packages are paid in advance. Monthly payments are due on the first day of each applicable service month, and quarterly payments are due on the first day of the applicable service month. Monthly payment arrangements are instalments toward the full seasonal commitment and are not month-to-month services. A signed agreement and approved automatic payment method are required for instalment plans. If an account becomes overdue, service may be paused and future appointments may be released until the balance is brought current.
